

LETTER OF RECOMMENDATION

To whom it may concern,

I am writing to recommend **Nicolás Astudillo Díaz**, with whom I have had the opportunity to work at SOLEM SA. During the short time I have been working with him, I quickly recognized that he was an outstanding professional — exactly the kind of person I always look for in a colleague: committed, reliable, and with a genuine drive to keep improving.

One of Nicolás's most notable qualities is his constant interest in staying up to date. In particular, he has shown a remarkable curiosity about the challenges that artificial intelligence is introducing into the world of software development — not just as a user of new tools, but as someone who actively thinks about how these technologies will reshape the way we design, build, and maintain systems.

Beyond his interest in innovation, Nicolás approaches technical challenges with a very positive attitude. He has a natural inclination to investigate, learn, and share knowledge with those around him — something that makes him a genuine asset to any team he is part of.

I have no doubt that Nicolás will be a valuable addition to any development team or project he joins. I recommend him with full confidence.

Please feel free to contact me should you require any further information.

Sincerely,

Carlos Astudillo Barraza

Software Architect
