

Letter of Recommendation

Nicolás Astudillo Díaz

Valparaíso, February 9, 2026

To Whom It May Concern:

I am writing to highly recommend **Nicolás Astudillo Díaz**, with whom I had the privilege of working at SOLEM, serving as his project leader, during the period from 2022 to 2025. During the time we worked together, Nicolás proved to be an exceptional professional, standing out for his **proactivity, high technical level,** and his **quick ability to adapt and learn new tools.**

As a fullstack developer, he actively participated in all stages of the development cycle, from planning to implementation and deployment. His mastery of both frontend and backend technologies, along with his focus on quality and problem-solving, were fundamental to the success of the projects in which he participated.

Additionally, Nicolás possesses a collaborative attitude and a constant willingness to support his colleagues, which contributed significantly to the team's positive climate and the achievement of our objectives. He not only takes on challenges with enthusiasm, but also proposes continuous improvements, demonstrating an analytical and innovative mindset.

For all the above reasons, I have no doubt in recommending Nicolás for any position where he can continue developing his talent. I am confident that he will be a valuable asset to any organization fortunate enough to have him.

Sincerely,

Benjamín Barros Navarro

Project Leader

SOLEM S.A.
